

An ISO 9001-2015 Certified Company

Side Mounted Magnetic Level Switch (LS 9900 Series)

Product Code :LS 9900

Float mounted at one end of rigid rod moves with change in level, magnetic capsule at other end of rod moves accordingly within fixed limits Switch contacts across the face change accordingly.

As the tank fills up the float lifts up due to buoyancy. The other end of the float which is magnetic in nature goes down and during its downward motion, triggers the switch assembly and the contacts get closed, which can be used to operate an alarm or any other audio/visual load.

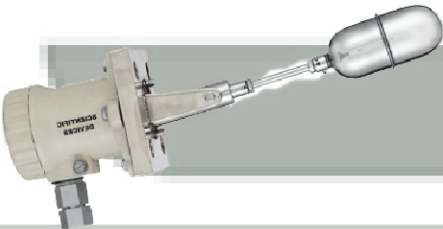

Specification

Application	: Liquids
Liquid Density	: Above 0.5
Liquid Viscosity	: Up to 500 cp
Design Pressure	: Up to 15 Kg/cm ²
Design Temperature	: Up to 150°C
Connection	: Flanged to ASA/BS/DIN Screwed BSP/Screwed NPT
Material	: SS304/SS304L/SS316/SS316L/PP/ HDPE/PVC/PVDF Lined/ PTFE Lined Other Materials

Switch type	: Micro, SPDT, DPDT
Form	: 1 NO+1NC / 2NO+2NC
Rating	: 5 Amp,230 VAC
Enclosure	: W-Proof IP65 / EX -Proof

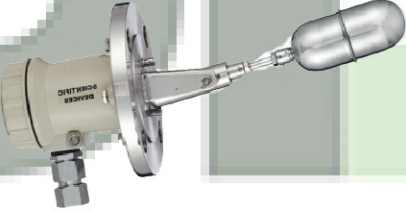

Available Options

Side Mounted Magnetic Level Switch With Square Flange Connection

Product Code :
LS 9900-SQ

Side Mounted Magnetic Level Switch With Screwed Connection

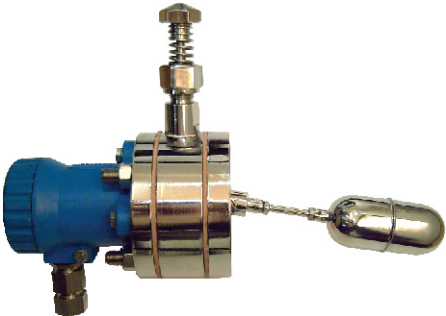

Product Code :LS 9900

Side Mounted Magnetic Mini Level Switch

Product Code :LS 9900-MINI-P

Side Mounted Magnetic Level Switch With Test Device

Product Code :LS 9900-TDS

Side Mounted Magnetic Level Switch With Extended Float Stem And Junction Box

Product Code :LS 9900-MRY

Side Mounted Magnetic Level Switch With External Cage

Product Code :LS 9900-EXCG
